

The Vale Primary Academy Vision and Values

2023-2024

We value our community links with churches, charities, other schools and local businesses and feel that these partnerships make a significant contribution to the ethos of sharing and learning that is central to life at The Vale Primary Academy.

We have high expectations of all our children and learning takes place in a calm, friendly and purposeful way. Our teachers, aided by an effective team of support- staff, plan and present lessons that are meaningful and interesting and promote enjoyment, personal development and achievement for children of all abilities.

Vision

At The Vale Primary Academy, we share the common vision of 'together we believe, accomplish, and achieve.'

Believe

The children have become familiar with the following words: "If you believe you can, you probably will. If you believe you can't, you won't. Believing is what gets you off the starting blocks."

At The Vale Primary Academy, we will ensure that the children believe in themselves as learners and as valued members of our community. We will believe in ourselves – believe that we can build an exceptional school and achieve the very highest standards.

Accomplish

We will work tirelessly to ensure that every child at The Vale Primary Academy makes excellent progress in their learning; we will nurture the whole child through creating an environment that allows them to develop emotionally, physically, and academically.

We will achieve this through an exciting and enriching curriculum, taught by excellent teachers and with the support of highly skilled pastoral team.

Achieve

Fundamental to our vision for the children of The Vale Primary Academy is that every one of them should leave our school ready and eager for the next stage in their education, confident learners who will go on to make a positive contribution in their secondary school and beyond.

We want our children to leave The Vale Primary Academy equipped with the knowledge, skills and self-belief that will allow them to direct their own lives.

Values

RESPECT

We know that every person in our school and local community deserves respect; our children are learning the ways in which we can show respect in everything that we do.

EXCELLENCE

We aim for excellence in every aspect of our work; we will be satisfied with nothing less for the children at The Vale Primary Academy.

PRIDE

We want our children to be proud of who they are and we ensure that we celebrate their uniqueness, differences, beliefs and festivals.

COMPASSION

We aim for our children to understand that that giving to others should be just as natural as providing for themselves. We build in opportunities for children to participate in programs that teach kindness, respect, empathy, and compassion.

ASPIRATIONS

We know that all of us need goals and that our children deserve to have high aspirations for themselves.
